## To restore and preserve salmon in the Nicomekl River,

Nicomekl Enhancement Society  
volunteers work year round, restoring habitat in the summer, collecting broodstock in the fall, rearing juveniles through winter, and releasing them in the spring.

Mixed in among all this is maintenance, public events, tours, special projects, and more, taking our volunteers from the rivers headwaters in the Township of Langley, throughout Surrey, to the rivers mouth at Blackie Spit near Crescent Beach.

If you have an interest in ensuring the future of the Nicomekl River, and want to be part of a hands on organization we welcome you contact us or stop by and see what we are about.

## NICOMEKL ENHANCEMENT SOCIETY

"A 100% volunteer  
organization dedicated to the  
preservation and restoration  
of the Nicomekl River  
Watershed"
